Fixed or swivelling shackle

BBB 40. A special insert is used to locate the shackle at 0° or 90°. When removed the shackle spins freely.

TECHNICAL FEATURES BBB 40

- Stainless steel ball bearing races, stainless steel ball bearings and glass fibre reinforced sheave for best bearing strength even under high dynamic loads.
- Acetal bearing cage to prevent ball-to-ball friction and to reduce weight.
- Glass fibre reinforced composite.
